

LIGHTNING DETECTION SYSTEM

Marlboro Parks have 7 Lightning Detection Systems

If Lightning is Detected within 5 Miles of the Rec Center:

**ALL stations will sound an alarm
The sound is a 'siren' tone for 3-4 seconds
Strobe light will flash continuously
The horns will only sound at first detection**

ACT NOW

Take Action to Ensure Safety. Weather systems can change. This system is not absolute protection. Please use common sense to keep you and your family safe.

30 minutes after the last lightning detection within 5 miles of the Rec Center all siren stations will sound an all-clear 'foghorn' tone for 3-4 seconds. The strobe light will turn off.
