APPLICATION FOR SOIL EROSION AND SEDIMENT CONTROL PLAN CERTIFICATION

The enclosed soil erosion and sediment control plan and supporting information are submitted for certification pursuant to the Soil Erosion and Sediment Control Act, Chapter 251, P.L. 1975 as amended (NJSA 4:24-39 et. seq.) An application for certification of a soil erosion and sediment control plan shall include the items listed on the reverse side of this form.

Name of Project AT&T NICKATUNK		Project Location: Municipality MORGANVILLE (MIDDLEBORO)	
Project Street Address 316 TENNENT ROAD		Block 172	Lot 41
Project Owner(s) Name AT&T NEW SINGULAR WIRELESS PCS, LLS		Email DAVIDETTE@DEWBERRY.COM	Phone # 973.576.9639 Fax # 973.739.9710
Project Owner(s) Mailing Address (No P.O. Box Numbers) 1 AT&T WAY		City RED BANK	State NJ Zip 07921
Total Area of Project (Acres) 3.74	Total Area of Land to be Disturbed (Acres) .074	No. Dwelling or other Units 0	Fee \$ 740.00
Plans Prepared by* DEWBERRY ENGINEERS INC ; DAVID NEVETTE, PE		Phone # 973.576.9639 Fax # 973.739.9710	
Street Address 600 PARSIPPANY RD SUITE 301		City PARSIPPANY	State NJ Zip 07054

*(Engineering related items of the Soil Erosion and Sediment Control Plan MUST be prepared by or under the direction of and be sealed by a Professional Engineer or Architect licensed in the State of New Jersey, in accordance with NJAC 13:27-6.1 et. seq.)

Agent Responsible During Construction AT&T WIRELESS	Email NB1281@ATT.COM
Street Address 1 AT&T WAY	
City RED BANK	State NJ Zip 07921 Phone 908.234.5399 Fax # -

The applicant hereby certifies that all soil erosion and sediment control measures are designed in accordance with current Standards for Soil Erosion and Sediment Control in New Jersey and will be installed in accordance with those Standards and the plan as approved by the Soil Conservation District and agrees as follows:

1. To notify the District in writing at least 48 hours in advance of any land disturbance activity. Failure to provide such notification may result in additional inspection fees.
2. To notify the District upon completion of the Project (Note: No certificate of occupancy can be granted until a report of compliance is issued by the District.
3. To maintain a copy of the certified plan on the project site during construction.
4. To allow District agents to go upon project lands for inspection.
5. That any conveyance of this project or portion thereof prior to its completion will transfer full responsibility for compliance with the certified plan to any subsequent owners.
6. To comply with all terms and conditions of this application and certified plan including payment of all fees prescribed by the district fee schedule hereby incorporated by reference.

The applicant hereby acknowledges that structural measures contained in the Soil Erosion and Sediment Control Plan are reviewed for adequacy to reduce offsite soil erosion and sedimentation and not for adequacy of structural design. The applicant shall retain full responsibility for any damages which may result from any construction activity notwithstanding district certification of the subject soil erosion and sediment control plan. It is understood that approval of the plan submitted with this application shall be valid only for the duration of the initial project approval granted by the municipality. All municipal renewals of this project will require submission and approval by the district. In no case shall the approval extend beyond three and one half years at which time resubmission and certification will be required. Soil Erosion and Sediment Control Plan certification is limited to the controls specified in the plan. It is not authorization to engage in the proposed land use unless such use has been previously approved by the municipality or other controlling agency. It is further understood that all documents, site plans, design reports etc. submitted to the district shall be made available to the public (upon request) pursuant to the Open Public Records Act, N.J.S.A. 47:1A-1 et seq.

<p>1. Applicant Certification* <i>Signature of Natasha M. Brown</i> Signature Natasha M. Brown Applicant Name (Print) Date April 3, 2020</p>	<p>3. Plan determined complete: Signature of District Official Date</p>
<p>2. Receipt of fee, plan and supporting documents is hereby acknowledged: Signature of District Official Date</p>	<p>4. Plan certified, denied or other actions noted above. Special Remarks: Signature of District Official Date</p>

*If other than project owner, written authorization of owner must be attached.

APPENDIX A2

REQUIREMENTS, GUIDELINES AND PROCEDURES FOR
PREPARING AND IMPLEMENTING "STANDARDS FOR SOIL EROSION AND
SEDIMENT CONTROL IN NEW JERSEY"

An application for certification of a soil erosion and sediment control plan shall include the following items.

1. One copy of the complete subdivision, site plan or construction permit application, including key map as submitted to the municipality (Architectural drawings and building plans and specifications not required.) which includes the following:
 1. Location of present and proposed drains and culverts with their discharge capacities and velocities and support computations and identification of conditions below outlets.
 2. Delineation of any area subject to flooding from the 100-year storm in compliance with the Flood Plains Act (N.J.S.A. 58:16A) or applicable municipal zoning.
 3. Delineating of streams, wetlands, pursuant to N.J.S.A. 13:9B and other significant natural features within the project area.
 4. Soils and other natural resource information used. (Delineation of the project site on soil map is desirable utilizing the USDA Web Soil Survey.)
 5. Land cover and use of area adjacent to the land disturbance.
 6. All hydraulic and hydrologic data, describing existing and proposed watershed conditions and HEC HMS, HEC RAS, TR-55 and similar models, and other electronic input files, if used, of existing and proposed conditions and a completed copy of the Hydraulic and Hydrologic Data Base Summary Form, SSSC 251 HDF1.
2. Up to four copies of the soil erosion and sediment control plan* at the same scale as the site plan submitted to the municipality or other land use approval agency to include the following: (This information shall be detailed on the plat)
 1. Proposed sequence of development including duration of each phase in the sequence.
 2. Site grading plan showing delineation of land areas to be disturbed including proposed cut and fill areas together with existing and proposed profiles of these areas (an interim grading-erosion control plan may be required for large sites with extensive cuts and fills).
 3. Contours at a two foot (or smaller) interval, showing present and proposed ground elevation.
 4. Locations of all streams and existing and proposed drains and culverts.
 5. Stability analysis of areas below all points of stormwater discharge which demonstrates a stable condition will exist or there will be no degradation of the existing condition.
 6. Location and detail of all proposed erosion and sediment control structures including profiles, cross sections, appropriate notes, and supporting computations.
 7. Location and detail of all proposed nonstructural methods of soil stabilization including types and rates of lime, fertilizer, seed, and mulch to be applied.
 8. Control measures for non-growing season stabilization of exposed areas where the establishment of vegetation is planned as the final control measure.
 9. For residential development - control measures to apply to dwelling construction on individual lots and notation that such control measures shall apply to subsequent owners if title is conveyed. This notation shall be shown on the final plat.
 10. Plans with a notation for maintenance of permanent soil erosion and sediment control measures and facilities during and after construction, also indicating who shall have responsibility for such maintenance.
3. Appropriate fees. (As adopted by the individual district.)
4. Additional items as may be required.

*Individual districts may require modifications in the above list.

316 Tennent Road, Morganville, Marlboro Township, Monmouth County, NJ
Dewberry No. 50110612

To whom it may concern,

New Cingular Wireless PCS, LLS d/b/a AT&T is submitting the attached plans for Soil Erosion and Sediment Control Plan Certification proposing to construct a 155'-0" Tall Monopole within a 25'x25' fenced compound.

The site plans prepared by Dewberry Engineers Inc. show that AT&T proposes to install wireless antennas on the proposed monopole and place support equipment in an equipment shelter within the fenced compound. A utility meter, transformer and cable bridge will be located at grade, in addition to the monopole and equipment shelter. Power and telephone will be brought to the site via underground conduits, running through an existing paved access road. There are no proposed alterations, improvements or relocations for any streams or existing drainage structures within the property and the total area of disturbance is less than 1 acre. Due to the de minimus nature of the project, Dewberry does not feel that a drainage report or stormwater calculations are required.

Please call me at 973-739-9400 should you have any questions on this matter.

Very truly yours,

Gregory Nawrotzki
